

Practical 4

Task 1: Comparative Research

Feature	Midjourney	DALL-E 3
Image Quality	Artistic, high-resolution, cinematic	Photorealistic, vivid, precise
Prompt Accuracy	Moderate, sometimes needs tuning	Excellent, especially in ChatGPT
Style Flexibility	Extremely diverse, customizable	Good, some style limits
Usability	Discord-based, less intuitive, powerful but complex	Chat/web/API, user-friendly, easy, intuitive
Licensing & Terms	Commercial rights, public Discord, Commercial use allowed (paid)	Clear licensing, private API, commercial use allowed

Prompt : A futuristic city skyline at sunset, with neon lights reflecting on wet streets, flying cars zooming between skyscrapers, and a glowing digital billboard showing abstract art. Highly detailed, ultra-realistic, cinematic lighting.

Task 2: Visual Design Project

Generate concept art for an educational topic
